

SALISBURY

Autonomy Care supports you in the community and in your own home, regardless of the level of support you need.

At Autonomy Care Salisbury we offer a wide variety of care options, supporting all age ranges from children up to senior citizens. Our care services provide for complex learning or physical disabilities, mental health, palliative care or a hospital discharge, as well as assisting with daily essential life skills such as shopping. We offer round the clock support with an out-of-hours on call system in place.

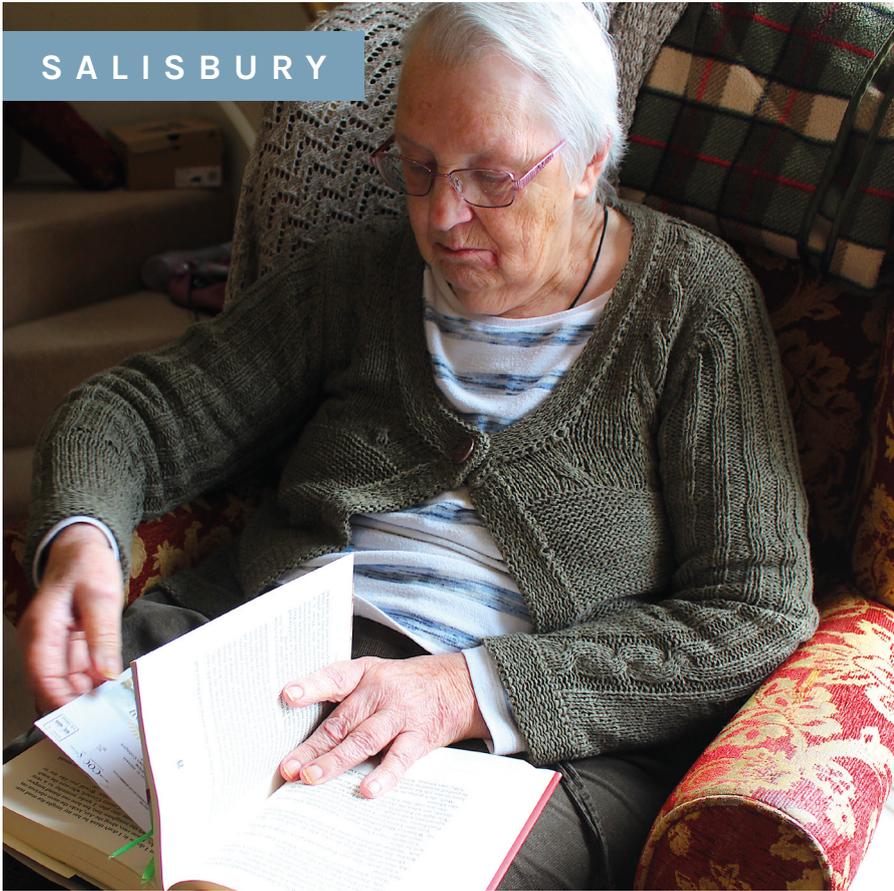

We pride ourselves in offering a good, flexible, quality service tailored to be as unique as each of our clients. Our support is designed to promote dignity, respect and independence at all times that allows our clients to remain at home for as long as possible. No task is too big or too small. We constantly monitor and review our clients care needs to promote positive outcomes and development, which also provides reassurance to extended family members. We pride ourselves in providing home care support that our clients feel confident in.

Our staff are fully trained with ongoing training and support. Our dedicated team of care workers help us to promote a culture for positive attitudes with strong core values, morals and goals. We feel this is crucial to ensure that our clients feel safe and confident in our care and most of all can trust us to look after them well.

Our services include:

- » A full free consultation within your home to assess and produce a person-centred care plan which enables people to remain independent at home for as long as possible
- » Support with home care to include personal care, companionship, home help and food/meal preparation
- » Dementia care, complex care, challenging behaviour and mental health
- » Ongoing client assessments and reviews to ensure a very responsive quality service
- » Person specific activities to encourage and promote independence
- » Positive behaviour support for complex behaviours
- » Promoting partnerships working to maximise independence

SALISBURY

"I can not recommend this company enough. The care they provide is absolutely outstanding! You can see they are all in a very supportive team and it's a great working environment."

Team member

Managing the service:
Steve Taylor

Steve has over 20 years experience of working alongside individuals with profound learning disabilities, challenging behaviours and or complex health care needs. Steve has been a member of the management team since May 2008, and Director since 2016.

Steve has obtained his level 4 management award, in addition to the relevant mandatory training requirements.
